NEOTION partners with M2M Solution for Neohome, creating an innovative and secure Smart Home ecosystem

A global and secure Smart Home platform for Pay-Tv Operators and Broadcasters

NEOTION, a French high-tech company providing innovative solutions for the digital TV market has teamed up with M2M Solution to develop Neohome, a global and secure Smart Home solution. The ecosystem will be presented for the first time at the forthcoming IBC exhibition, in Amsterdam at NEOTION booth, Hall 4 – B53.

Neohome will enable Pay-Tv operators and broadcasters to extend their current service offering and to generate new revenue for their businesses, by including new home automation services and devices.

Covering, Lighting, Security and Energy domains, Neohome integrates a large range of connected devices (LED Bulbs, sensors, HD cameras etc.) and a complete Back-end solution. With Neohome, partners will be able to distribute a broad and adaptable range of smart home applications via an innovative range of Gateways, which will also enable secure distribution of video and audio content in a multi-screen and multi-room environment.

M2M Solution bring on board experience in the complex field of connected devices and a full set of customised services. NEOTION and M2M Solution have combined their skills to create a complete solution covering smart devices, Gateways, IoT Application, security and Media Home distribution.

“We are pleased to have selected M2M Solution as a partner for our future smart home business for their expertise in the smart home field and specialised knowledge of home automation services and devices. We believe that both companies working in close partnership will be able to continue to innovate and deliver an even broader range of services and functionality through joint future solutions for Operator and Broadcaster to monetize.” says Gregory Wiczorek, CEO of NEOTION.

“We are very excited about the Neohome project and share with NEOTION the same ambition to bring more services to households. The TV is a great door to the smart home enabling a smooth experience to end users.” says Olivier Courtade, M2M Solution CEO.

The live demonstration of the Neohome ecosystem at IBC will be shown in a real house environment. This will showcase the capabilities of the NEOTION Home Gateway and M2M Solution’s software, when connected to a large selection of smart devices; security camera, windows sensors, motion detectors, connected smart lights, wall switches, flood detectors, connected power plugs, etc... driven by a unique application running on Smartphones, Tablets and a TV set – a truly disruptive innovation.

The commercial launch of Neohome is set for Q1 2016.

Come to visit Neotion on IBC exhibition for a live demonstration of Neohome, Hall 4 – B53.

About NEOTION:

NEOTION is a French high - tech company providing innovative solutions for the international Digital Television market since 2000.

NEOTION develops and distributes a wide range of DVB CI & CI-Plus Conditional Access Modules (CAM) - based on in-house ASIC design and embedding the latest CA vendors' security requirements (Conax, DRE Crypt, Irdeto, Verimatrix, Viaccess-Orca) and operator profile customisation for delivery to Pay-TV operators across the globe.

Based on its core experience of ASIC and Security, NEOTION have developed and will launch an innovative gateway solution with home automation capability and a wide range of home automation devices under its new 'Neohome' brand. This solution will enable operators and broadcasters to combine broadcast content (linear and Pay-TV), broadband services (OTT) with home automation features and evolve to a full Smart Home solution which will also securely enable the distribution of video and audio in a multi-screen and multi-room environment.

NEOTION is a human size company of 100 people with 60% in engineering developments, 35 M€ dedicated to R&D and with more than 35 successfully registered patents. NEOTION is largely involved as an active member of several Standardization and Digital TV committees, namely DVB, HBB TV and CI Plus LLP.
